5 units Mercedes Benz Arocs 4145-K 8x4 c/w VS-Mont Isolated Rear Tipper 20m³ - New.

Wheel base: 5150 mm (1-3 axle)
Type cab: day

(V) Loading volume: 20 m³ Dimension : 7050 mm x 2300 mm x 1300 mm

Support frame:

It is constructed individually for each specific chassis according to the chassis manufacturer's recommendation and advice.

Hydraulics:

Complete HYVA FE with gimbal system hydraulics with gimbal and controlling in the driver's cabin.

Used material:

Floor	HB 450 (highly wear-resistant steel)	Thickness 6 mm
Sidewalls	HB 450 (highly wear-resistant steel)	Thickness 5 mm
Tailgate	HB 450 (highly wear-resistant steel)	Thickness 5 mm

Sidewalls:

Sidewalls are rigid welded to the front face - without possibility to open.

Tailgate:

PENDEL – tailgate is suspended on pins and it is opened by its own weight while tipping. The tailgate is secured and unsecured by mechanic draw bars. Securing and unsecuring follows automatically during the tipping of the body, without intervention of the service.
